Key Features

Locate Buyers for Your Products

Find food importers for very specific products, from different regions worldwide, using our advanced filtering system.

Get New Leads Daily

Up to 500 companies are added each month, providing fresh leads and new opportunities for exporters.

Analyse Size and Financial Details

We provide global financial data such as sales figures, number of employees, date of establishment, registration number, for most companies.

Reach the Decision Makers

More than 70% of the companies in our database include the purchasing department's contact. We also provide details about their social media profiles, giving a choice of strategies for getting in touch.

Work with the Latest Information

We verify each entry, making sure that email addresses are valid and that contact details are up to date.

Get Reliable Support and Updates

We offer free support and access to the latest features for all our users, for the duration of their subscription.
